

Fellow in Gastroenterology / Endoscopy

Tata Medical Center

Applications are invited for the post of gastroenterology/endoscopy fellow at the Tata Medical Center. The post will be initially for one year and can be extended if agreeable to both parties. The Digestive Diseases department at the Tata Medical Center is a referral center for GI Malignancies. Benign cases are also seen and managed in the OPD. It is currently staffed by 1 full time consultant with the other one joining very shortly. The unit performs all types of basic diagnostic (Gastroscopy, Colonoscopy) and advanced therapeutic endoscopic procedures (ERCP, EUS, endo-luminal stenting, endoscopic-mucosal resection). The department functions closely with the Department of GI Surgery, Interventional Radiology and Nutrition. There is a weekly GI multi-disciplinary team meeting where all cases are discussed. The endoscopic suite at the TMC is equipped with the latest Olympus equipment. The fellow will get an opportunity to learn all basic and advanced therapeutic endoscopic procedures. He will attend all the Gastroenterology OPDs. He will be a part of the on-call roster for in-patients and shall be required to be on-site during those times. The fellow will be supported to attend at least one national conference in a year. He will be encouraged to do research and participate in academic activities during his tenure at the TMC.

The applicant will ideally be a post-graduate (MD/DNB in Medicine).

For further enquiries regarding the post please feel free to ring Dr. Suvadip Chatterjee, Senior Consultant in Digestive Diseases (+91 33 66057199) within work hours.
