Fellowship in GI Surgical Oncology

Applications are invited for Fellowship in GI Surgery at Tata Medical Center, Kolkata.

Duration – 2 years, full time, extendable to 3rd year as per availability of seat and performance

Eligibility - MS / DNB General Surgery, fresh DNB (GI surgery) can also apply

Program highlights

The division of GI surgery has been broadly divided into **HPB surgery**, **Colorectal** and **Foregut**. We are high volume center for pancreatic resection, major liver resection, esophagectomy and laparoscopic colorectal resection in eastern India. We have performed the first totally laparoscopic major hepatectomy and first HIPEC for peritoneal cancer in eastern India. A robotic surgery program will start in due course. There is significant hands-on exposure for fellows. Fellows are also encouraged to participate in journal Club, MDT, mortality meet and presentation in conference. An observership at TMH Mumbai or any other suitable center may be included in the fellowship program.

Consolidated remuneration – as per central govt. scale for senior registrars (matching PGI/AIIMS stipend)

Contact us - Please email your CV with 3 testimonials to the GI Consultants
