

Consultant- Clinical Haematology & BMT

Conceptualised in the year 2004 as a philanthropic initiative for the Eastern and North-Eastern parts of India and the neighboring countries, the Tata Medical Center (TMC) started operations in Kolkata on May 16, 2011. The hospital is governed by a charitable trust – Tata Medical Centre Trust. It is an integrated Oncology facility with well-trained professional staff and equipped with modern facilities and the most contemporary medical equipment. Set up at a cost of Rs. 350 crores, the Hospital, with a capacity of 183 beds, serves all sections of the society, with 50% of the infrastructure earmarked for free or subsidized treatment for the underprivileged sections. Tata Medical Center is currently in an expansion mode with another 254 beds being added to the current bed strength. The hospital provides a wide spectrum of services from diagnosis, therapy to rehabilitation and palliative support in cancer.

The Institution's objective is to excel in service, education and research.

About the Department:

The selected candidate will join an eminent team of Hematologists/ Oncologists at Tata Medical Center who see more than 2500 new patients with hematologic disorders and conducts more than 70-80 hematopoietic cell transplants every year. The bulk of the work is in the area of malignant hematology and hematopoietic cell transplantation, with a scope to work in select benign hematologic disorders based on institutional feasibility. Apart from patient care, the Hematology group is renowned for institutional and collaborative work in the area of real-world data reviews, clinical trials (investigator-initiated studies and pharma sponsored) and translational research. The department has secured preliminary clearance to begin National Board accredited super-specialty training in Clinical Hematology.

In order to fulfill additional needs and for phase-II expansion, we are looking to appoint young and proactive clinical consultants as full-time faculty who will contribute to

- **Junior Consultant - Clinical Haematology & BMT**
